(iv) Discussion on Market Intelligence Issues

a. Ponzi Schemes / Illegal Activities of Unincorporated Bodies / Firms /Companies Soliciting Deposits from the public.

A ponzi scheme is a form of fraud in which a purported businessman lures investor and pays profits to earlier investors using funds obtained from newer investors. Investors may be led to believe that the profits are coming from product sales, or other means, and remain unaware that other investors are the source of apparent profits. A Ponzi scheme is able to maintain the illusion of a sustainable business as long as most of the investors do not demand full repayment and are willing to believe in the non-existent assets that they are purported to own, and there continues to be new investors willing to contribute new funds.

b. Banking related Cyber frauds, phishing, etc.

Bank fraud is the use of potentially illegal means to obtain money, assets, or other property owned or held by a financial institution, or to obtain money from depositors by fraudulently posing as a bank or other financial institution. In many instances, bank fraud is a criminal offence. While the specific elements of banking fraud laws vary depending on jurisdictions, the term bank fraud applies to actions that employ a scheme or artifice, as opposed to bank robbery or theft.

c. Instances of usurious activities by lending entities in the area, cases of over indebtedness.

Since the development of the original microcredit methodology, the poor have been declared bankable and increasingly even profitable bank clients. While microfinance products and lending methodologies vary significantly on the ground, micro lending has become scalable due to cost efficient operating models and due to risk management methodologies, that ensured high repayment rates. But at the same time, this methodology has caused over indebtedness of the customers which resulted in several microfinance markets have undergone crises. Preventing loans to dishonest borrowers and giving borrowers strong reason to repay these mechanisms are safeguards against strategic default by borrowers who are unwilling to repay.

d. Credit related frauds by borrower groups, etc.

The rising trend in loan related frauds in the financial sector is a matter of serious concern. The issues relating to prevention, early detection and reporting of frauds has been investigated by an Internal Working Group (IWG) of the RBI which also held wide ranging consultations with various banks and other stakeholders. It is imperative on the part of the bank to report fraud of Rs. 1 lac and above to Fraud Monitoring Cell and in turn it will report it to IBA. IBA circulates modus operandi of these fraud cases to member banks regularly to take suitable / preventive measures proactively.

He further informed the house that DFS has launched a Special 6-month Gram Panchayat (GP) Level campaign in all the Aspirational District and Mission Utkarsh Districts.

Shri Naveen Dhingra, CGM, NABARD, appreciated the Bankers for continuously improving the CD Ratio in the State during the last three quarters in current Financial Year. remaining targets. He stressed upon the need for alignment of ACP with PLP in the ensuing FY 2023-24.

Smt. Mary Gwite, CGM, RBI, expressed her concern over the low CD Ratio of the state of Assam as comparative to all India figure of 75%. She urged the banks and districts having less than 40% to firm up their action plan to improve their CD Ratio. She asked for setting up of more RSETIs. She spoke at length regarding financial literacy, digital payments, and digitalization of the economy.
